

THORNHILL COMMUNITY CENTRE CONSTRUCTION NOTICE – SUMMER 2022

Sidewalk construction at the Thornhill Community Centre is expected to start June 27th and will last approximately 3 months.

The project will involve the construction of a small wall along the edge of the existing sidewalk in front of the Library and the rebuilding of the exterior stairs leading out of the basement to prevent flooding.

As a result of the construction, the sidewalk in front of the library to the south of the main entrance will be closed. During the construction there will be times when the lane closest to the sidewalk will also be closed. We expect this will result in general congestion in the parking lot throughout the construction period.

Please allow extra time to find parking before your programs this summer. You may also wish walk, carpool or take public transit to the Community Centre if possible.
